

Cut and paste to sort the animals according to their number of legs.

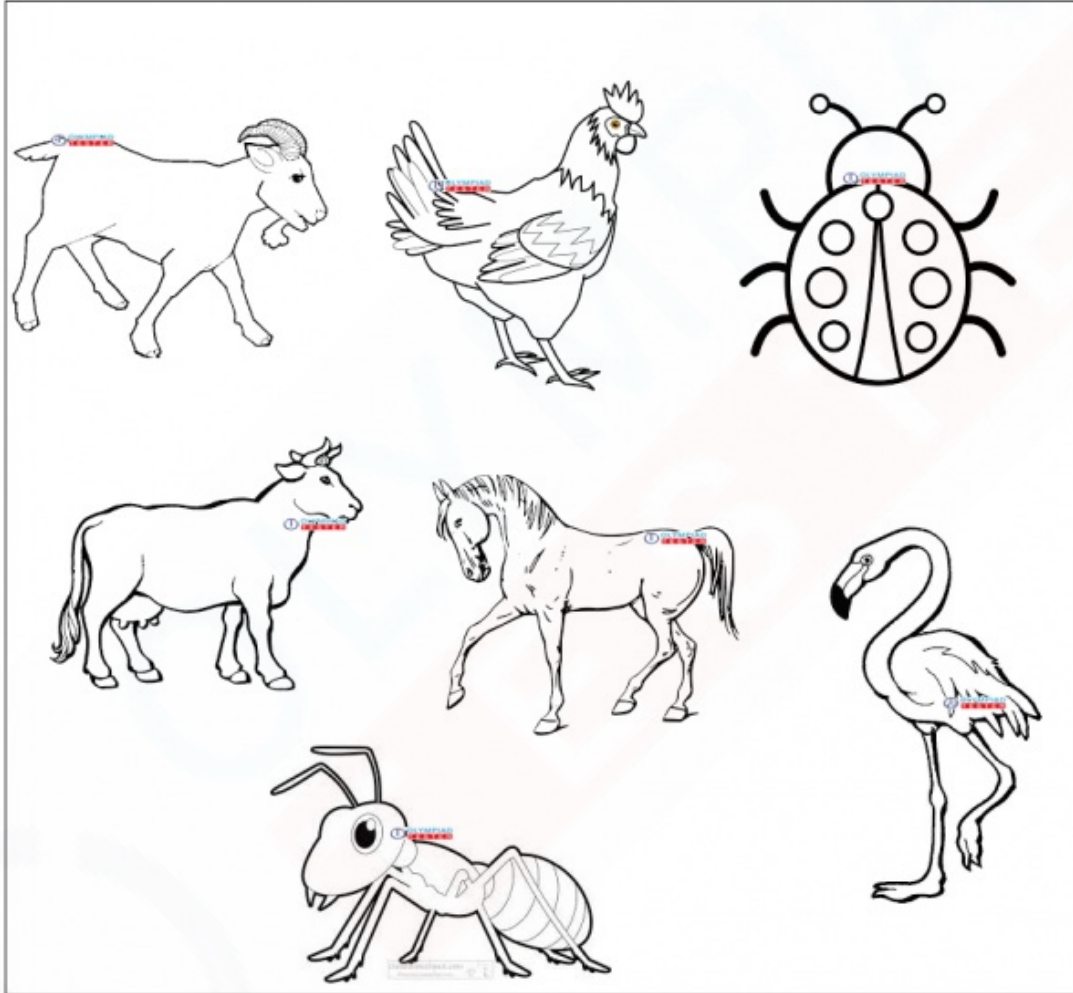

<p>4 legs</p>    	<p>2 legs</p>    		
			
			

In this math worksheet, your child will count how many legs each animal has and decide whether it matches the answer given.

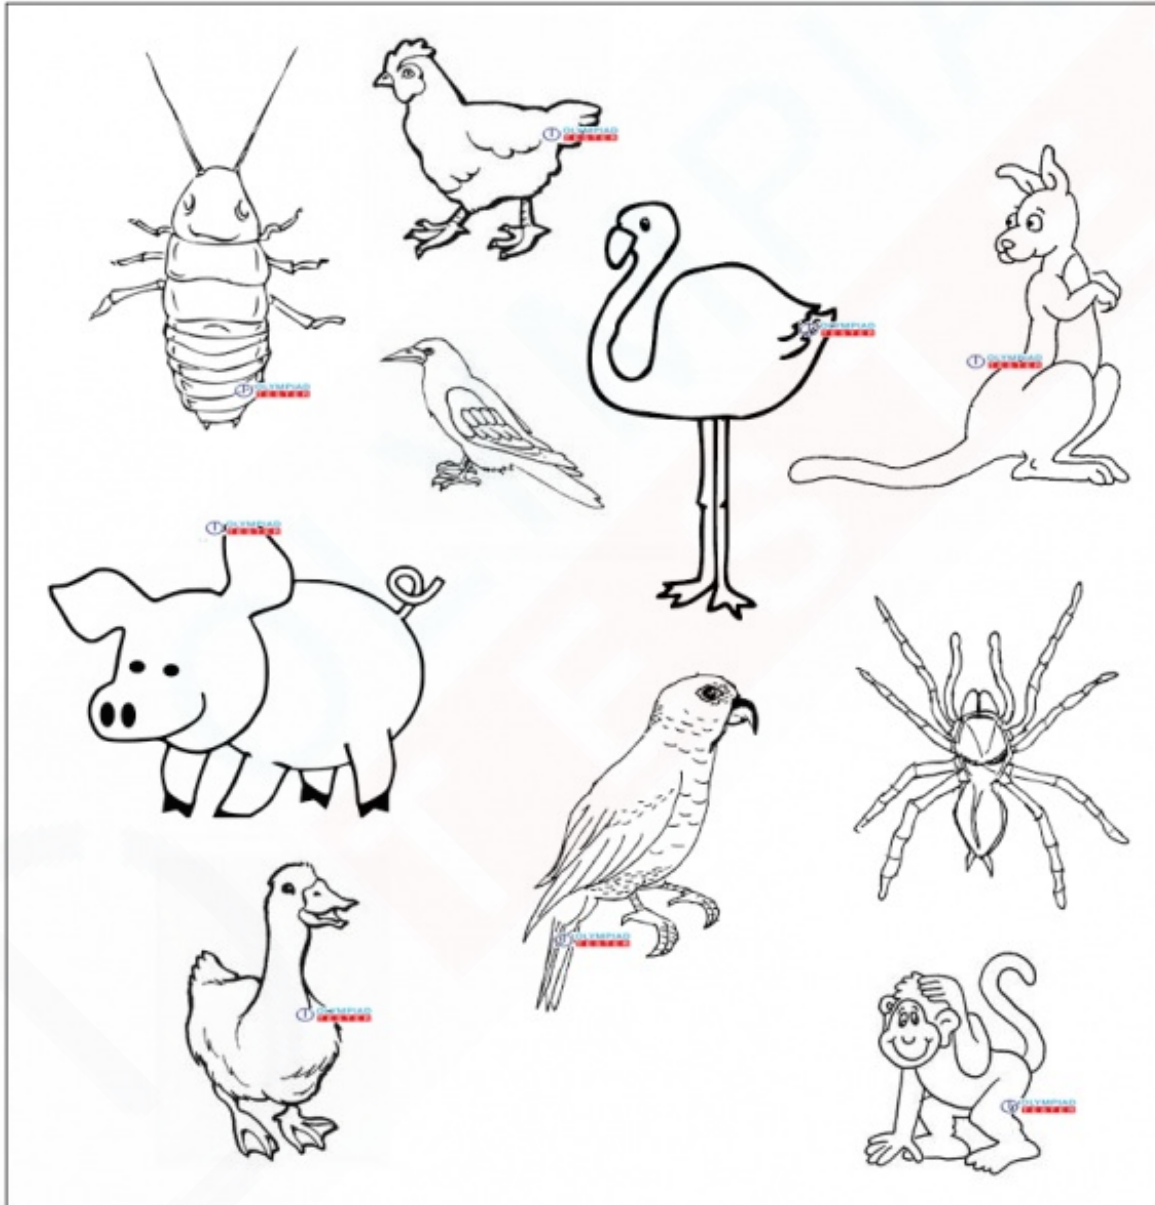

Direction: Circle the animals having the same number of legs as mentioned.

Direction: Color the animals that have 4 legs.

Direction: Color the animals that have 2 legs.

Direction:

1) Cut the back half of each animal and paste it onto the matching front half of each animal.

2) Color the animals
